Mr G Cafearo

Agritec Ltd

Unit 3

Station Road

Bakewell

Derbyshire

DE45 1GE.

14<sup>th</sup> May 2009.

To Whom it may concern:

I can confirm that we have taken material in the form of an oil / fat from the Agritec processing machine and successfully converted that material into a road transport fuel in the form of biodiesel.

When utilising the recovered oil (whether from processing pork bones or various food co products) from the Agritec machine the oil is no more difficult to convert than a standard recovered oil.

Should any further clarification be required then please do not hesitate in contacting me.

Yours Sincerely,

Robert Brocklesby.
